## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statements filed August 6, 2004, November 22, 2004, April 22, 2005, August 22, 2005, March 7, 2006 and December 22, 2006 have been placed in the application file and the information referred to therein has been considered as to the merits.

The information disclosure statement filed October 3, 2003 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

The information disclosure statement filed March 22, 2005 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the Japanese Office Action was not listed on a 1449 or a PTO/SB/08 form. It has been placed in the application file, but the information referred to therein has not been considered as to the merits.

Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

### ***Claim Objections***

Claim 4 is objected to under 37 CFR 1.75(d)(1) where the claim or claims must conform to the invention as set forth in the remainder of the specification and the terms and phrases used in the claims must find clear support or antecedent basis in the description so that the meaning of the terms in the claims may be ascertainable by reference to the description. (See § 1.58(a)). In the instant claim, applicant recites "selecting means for selecting a **descrambling means** from a plurality of **descrambling means**", however the claim never provides an antecedent basis for a **descrambling means**. Claim 35 depends from objected claim 4 and is therefore objected for at least the reason given above.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3, 15, and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. In the instant claim there are steps for authenticating and

descrambling data transmitted between devices but there are no steps for reproducing the data.

Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172:01. In the instant claim there are steps for authenticating an external device however there are no steps for coding data.

Claim 17 provides for the use of recording data, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 17 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

#### ***Allowable Subject Matter***
